

C. Nevada Bell's Rates Track Pacific Bell's Rates for 800 Database Service.

Pacific Bell is Nevada Bell's SCP provider. In Nevada's original filing,²¹ it used Pacific's per query rate of \$0.005896 to develop its rate of \$0.008154. Pacific subsequently lowered this rate to \$0.005275. Nevada Bell's rate, as filed in its Transmittal 167, reflected this change in Pacific's rate. Nevada Bell's basic per query rate was filed as \$0.005796. Additionally, because 800 Access Service was also part of the 1993 Annual Access Charge Tariff filing, Nevada Bell's per query rate was revised to reflect compliance with the Commission's Order in the Matter of Amendment of the Part 69 Allocation of General Support Facility Costs, released May 19, 1993. Thus, Nevada Bell's per query rate was further reduced from \$0.005796 to \$0.005351, effective July 1, 1993.

²¹ Nevada Bell Transmittal No. 154.

V. Conclusion.

For all of the foregoing reasons, Pacific and Nevada Bell's tariffs for 800 Database Service should be permitted to remain in effect as filed.

Respectfully submitted,

PACIFIC BELL AND NEVADA BELL
